

# HEALTHCARE QUALITY & PATIENT SAFETY TRANSFORMATION PROGRAM (HQPSTP)

2026 COHORT SERIES

Spring • Summer • Fall

*"Preparing Tomorrow's Healthcare Quality Leaders Today"*

## The Challenge: Why This Program Matters

Medical errors are estimated to be the **third leading cause of death** in the United States. Healthcare systems worldwide face unprecedented challenges—regulatory scrutiny, accreditation requirements, rising patient expectations, and the imperative for value-based care.

**HQPSTP addresses this critical need** by providing a comprehensive, practical, and personalized learning experience that bridges the gap between theoretical knowledge and real-world application.

## Program Overview

HQPSTP is a **comprehensive, high-impact virtual training program** designed to empower healthcare professionals to lead transformative improvements in care delivery. Through expert-led workshops, case studies, and applied projects, participants gain advanced competencies to reduce harm, improve patient outcomes, and foster a culture of excellence.

## Program Structure

COMPONENT	DETAILS
Total Sessions	8 Live Virtual Sessions
Session Duration	2 Hours per session
Total Contact Hours	16 Hours + personalized learning
Program Duration	4 Weeks (2 sessions/week)
Class Size	25-40 Participants per cohort
Delivery	Live Virtual + Recordings + 1:1 Coaching

## Four Cornerstone Domains

- **Advanced Concepts in Healthcare Quality**  
Performance measurement, statistical process control, quality dashboards, root cause analysis, and FMEA
- **Healthcare Risk Management**  
Enterprise risk frameworks, clinical risk assessment, claims management, and compliance strategies
- **Patient Safety & Clinical Governance**  
Just Culture, High Reliability Organization principles, human factors, and safety culture assessment
- **Healthcare Leadership**  
Change leadership, emotional intelligence, stakeholder engagement, and strategic planning

## What Makes HQPSTP Unique

### ◆ Personalized Learning

COVA framework creates individualized experiences tailored to your role and goals

### ◆ Expert Faculty

Led by Johns Hopkins-trained healthcare quality expert with 15+ years experience

### ◆ Certification Prep

Curriculum aligned with CPHQ, CPPS, and CPHRM certification domains

### ◆ Practical Outcomes

Create real policies, procedures, and QI projects for immediate implementation

### ◆ Post-Program Support

Continuous mentorship ensures momentum is maintained after graduation

### ◆ Team Benefits

Organizations enrolling teams receive complimentary quality assessments

## Key Learning Outcomes

- ✓ Lead quality improvement initiatives using PDSA, Lean Six Sigma methodologies
- ✓ Apply patient safety science and tools (RCA, FMEA) to prevent harm
- ✓ Conduct comprehensive risk assessments and develop mitigation plans
- ✓ Establish effective governance structures and clinical audit processes
- ✓ Drive cultural change and champion high reliability organizations
- ✓ Prepare for CPHQ, CPPS, and CPHRM professional certifications

## Who Should Attend

### Individual Professionals

- Quality Managers, Directors & Coordinators
- Patient Safety Officers & Risk Managers
- Nurses, Physicians & Allied Health Leaders
- Healthcare Administrators
- Compliance & Regulatory Officers
- Those preparing for CPHQ/CPPS/CPHRM

### Organizations

- Hospitals preparing for accreditation
- Health systems improving HCAHPS scores
- Ambulatory Surgery Centers
- Physician practices implementing QI
- Long-term care facilities
- Organizations in value-based programs
